User Guide

Applicable Products

Smart Golf

Smart Marker

Smart Golf and Smart Marker are based on the common Tittle Dot platform.

App Download

Users should first download the appropriate Smartphone app. We support both Android and iOS. Please search for keyword “Tittle Dot” on Google Play or App Store.

* The download method may differ depending on your country.

Android Phone

Please search for “Tittle Dot” on Google Play.

Android OS 4.3 and above.

iPhone

Please search for “Tittle Dot” on App Store.

iPhone 4S and above.

Device Pairing

Connection

01. Place the Smartphone within 1 meter (3 feet) from the device.

02. Start the "Tittle Dot" app installed on your phone.

03-1. Separate the device from the clip (Smart Golf).

03-2. Click the button on the device to connect with the app.

Device Pairing

Connection

04. Once paired by Bluetooth, the device will connect automatically to the app in the future.

05. You can use the device once connected with the app.

On Screen Menu

Hole Number

The current hole number. In the Carry Distance Measurement mode, a 'C' appears instead of hole number.

Left, Right Green

Left Green 'L', Right Green 'R', In case of Common Green, '-' will be displayed.

Unit

Distance Unit will be displayed **yd** or **m**

Bluetooth Connection Status

The Bluetooth logo appears when connected.

Distance Display

It shows the remaining distance to the pin. In the Carry Distance Measurement mode, it shows the distance from where the ball was struck.

Smart Marker Button

When connected via Bluetooth, pressing the button will make the LED blink. Pressing the button also triggers the voice guidance on remaining distance. Pressing and holding the button for 1 second activates the shot tracking mode.

Operation Guide

How to Use

Carry your smartphone when playing a round. Both Smart Golf and Smart Marker use the phone's GPS to measure the distance.

Title Dot Course Update

- The course data may be updated when you start the “Title Dot” app.
- The course update occurs whenever new data is available.

Starting Tittle Dot App

- Start the app when you visit the golf course. The course information is automatically displayed if there is mobile data coverage and the device is connected via Bluetooth.

Round Tracking

- Clicking the Smart Marker's button for 1 sec, shot tracking function will be executed and user can check a round tracking on the screen.
- Shot location is marked as 'T' on the yardage screen.(see left image.)
 - *Shot tracking function is used only for Smart Maker and Android Smartphone.
